Bluetooth® device cannot find the Bluetooth® speaker	Check the Bluetooth® speaker to see if it is powered on; check the distance to ensure it is within 10 meters
Cannot connect the Bluetooth® speaker	Turn off Bluetooth® on devise or restart SunTunes™

SunTunes™ User Guide

Product Introduction

Congratulations on purchasing your **SunTunes™** by **MeTime Audio!**

SunTunes™, a patented one of a kind Wireless Stereo Speaker for chairs is much more than just a wireless speaker, it's a water resistant **"Personal Audio Space" Wireless Stereo System** that delivers a whole new listening experience.

This unique product allows you to place your music right behind your ears, not over them like buds or headphones, allowing you to hear ambient sounds (crashing waves, kids in the pool) or simply have a conversation without having to take earbuds or head-phones on & off. Nothing to wear and no wires! Our Near-Ear design delivers a rare audio experience due to proper speaker proximity, and directionality. The result: An amazing, high quality sound in your own private audio space. SunTunes™ functionality in-cludes an integrated **Share Mode** feature so you can sync two SunTunes™ to a single Bluetooth® device & listen together with a companion. High-quality system components give you enough power to boost the volume and share music with a small group. Each setting is unique, so creating the ability to listen pri-vately or share your tunes with others is a feature we had to offer. Two technologies in one product!

Perfect for outdoor enthusiasts, pool (including water parks) & beach goers who love sun-soaked relaxa-tion, lake-side fisherman, surfers, hikers, boaters, campers, tailgaters and travelers. Or to keep it sim-ple, anyone sitting in a high-back chair.

So power it up, lean back and enjoy!

Cleaning

SunTunes™ can be cleaned off with a damp towel/ cloth or gently rinsed of sand, lotion and other debris. For any stains, use regular soap, a cloth and gently rinse.

NOTE: DO NOT use any strong chemical solvent cleaning solutions. Avoid any corrosive liquids and gas. Do not place on anything with a bumpy motion, high temperature, or submerge entirely into water.

WARNING: Keep away from infants and young children. Contains Lithium-ion battery. Do not place in high heat location or near fire. Do not place in mouth. Contains Hazardous Materials. Do not charge when unit or hands are wet.

1) Charging

- **Flip back** the **silicone cover under the controls side** of SunTunes™ to access the **DC USB 2.0 cable connection,** insert the proper mating end of the cable into the SunTunes™ and connect the other end to your computer or standard regulated, 5V USB charger.
- When the LED indicator is on, it means charging, when the battery is full, the LED indicator will be off. The light indicator can be faint and may need to be viewed in a dark charging location.
- When the **battery is low,** the speaker will provide a **Charging Required Indicator Sound.**
- Make sure your speaker is fully charged before using it for the first time..
- A full charge from a drained battery takes approximately 4 hours and plays continuously 14 hours @ 50% volume.

1. Connect the USB charging cable from your charger into the SunTunes™ charging port under the silicone cover.
2. When the LED indicator is on the SunTunes™ speaker is charging.
3. The LED indicator goes off when device is fully charged.

WARNING: Never charge your SunTunes™ speaker when wet. Make sure the speaker and your body is completely dry before connecting to any charging source. Charging any electrical device when wet may result in injury or product failure.

NOTE: Your SunTunes™ speaker is shipped with a low battery charge. Please fully charge before first use.

2) Strap Assembly & Mounting

The SunTunes™ speaker comes with **two different size** silicone mounting **straps** for **larger** and **smaller chair** backs. Determine which strap will best fit over your chair back.

To Install the Strap – Hold the very end of the strap and **Firmly Slide & Press the end** of the strap into the slots on the end of the Suntunes™ speaker.

Use soapy water or lotion if desired to help insert the strap into the ends of SunTunes™

3) Controls

Control functions may be completed on your mobile device. All controls on SunTunes™ are located on one side next to one of the speakers. Push down firmly to operate these controls.
